Afternoon Talks: 14:00pm-16:00pm

Registration is £20 per person. To book a place and for more details visit www.medicmentor.org

Medic Mentor's Insight into Medicine day is part of our continuing commitment to inform your career decisions. It is also part of our Widening Access to Medicine Programme. We hope to inspire many students who hadn't previously considered Medicine as an option. This highly varied career is secure and rewarding, and offers more opportunities than you may have imagined.

Students, parents and teachers are welcome to attend. This is a unique opportunity to speak to current medical students and junior doctors. Delegates will have access to 16 different careers talks, including various Royal Colleges, helpful organisations and medical schools.

Delegates will have access to exhibits during the lunch hour, where students can purchase medical application guides, sign up to Royal College student memberships, learn about scholarship programmes and work experience opportunities.
